MOTIVATION

Getting out of my comfort zone and opening up new perspectives at the same time.

INSIDER TIP

"Stige Ø" in Odense. The park right by the sea has a lot to offer. In addition to wonderful sunsets, the work of an artist can be admired here. It consists of huge wooden trolls (hidden in the forest).

BIGGEST DIFFERENCE

The attitude towards cash. In Denmark, people pay by mobile phone, regardless of the amount. Nobody carries the spectacular coins with a hole in the middle or banknotes.

CHALLENGES & HURDLES

My English skills. The bigger the vocabulary, the more profound conversations with people from all over the world are possible.

FUN FACT

The pronunciation of the Danish language is a mystery. Shared tip: Imagine that you have a hot potato in your mouth.
