Bentley Motors Ltd. - Munich, Germany

Traineership

MOTIVATION

Changing your enviroment, even if you are already in a near perfect one, can be extremely rewarding in terms of experience you gain while abroad. There are many opportunities to learn and get new ideas that would never occur otherwise.

INSIDER TIP

If during your traineership the place you work at is located in a business complex: try and meet as many new faces outside of the company as possible. It makes going to the office that much more interesting

BIGGEST DIFFERENCE

You always expect a degree of differentiation when it comes to culture in a different country. However, nothing could have prepared me for just how big of a difference there is between the way busienss is done in Austria vs. in Germany

CHALLENGES & HURDLES

Finding accommodation is always a bit of a struggle no matter where you go, especially in Munich. The support from Erasmus makes this a far less stressful endeavour than it would be normally.

FUN FACT

Less of a fun fact, more of a fact that brings fun: putting in that additional hour of work or really going the extra mile for your colleagues can truly change the way people view you and bring about some oppurtunities you would not have had
